

# Woodturning Extravaganza

*Seven expert woodturners will transform wood into bowls, dolls, furniture and sculpture on Sunday March 19 at Nepean CAPA High School, Emu Plains. The skill level is extraordinary. They have written hundreds of magazine articles and eight books between them and taught in ten countries. They will turn, burn, carve and colour wood at a cost of just \$40*

*There will also be a wood turning timeline comprised of over 100 copies of turned objects from 2500 BCE onwards. Google 'Blue Mountains Woodturners' and click on 'Mini Symposium' to see the demonstrators' creations and for more information.*

*The Blue Mountains Woodturners club also offers classes taught by experts for just \$20 a session if you are inspired to have a go. Ph: John 0407709351*
